AS-4

CO2 Alarm Station 4 (Blue light)

The AS-4 CO2 Alarm Station is an audible-visual alarm module that features a Blue light LED display indicator and a LCD digital ppm level display. It is designed to be mounted outside of grow-room or grow facilities to monitor the CO2 ppm level. The AS-4 can be linked to either AL-1 or AL-2 CO2 sensors channel, or it can be linked to both sensor channels for complete redundancy.

The AS-4 will sound an audible alarm and blink the Blue LED indicator in the event of the CO2 level going above the user's preferred level set in the Carbon-X main controller.

*Note: The AS-4 requires the SPH-1 for supplemental power.

Specifications

AS-4

Siren

Sound Pressure Level	100dB

Package Content

AS-4 CO2 Alarm Station	1pc
16ft RJ12 Cable	1pc

Working Environments

Temperature	32-122°F (0-50°C)
Humidity	≤90%

Package Dimensions

Size	130mm(L) x 187mm(W) x 88mm(H) 5.12"(L) x 7.36"(W) x 3.46"(H)
Gross Weight	1.26lbs/0.57kg
