

Airganics 2000 / Filtered Air Purifier Large Portable Containment System

Portable Containment Systems engineered for Odor neutralization and HEPA air filtration for Greenhouses, Laboratories and Food Processing

The **Airganics 2000** is a powerful and portable filtration system engineered for odor neutralization and air filtration. By combining our Carbon Fusion tray filter, carbon pleated and Merv filters, the **Airganics 2000** is one of the most efficient and portable filtration systems in its class.

Versatile:

Perfectly suited for:

- Odor Neutralization
- Air Filtration
- Mold Spore Containment / Removal
- Laboratory, Medical and Grow-room applications

Durable:

The **Airganics 2000's** vertical design keeps the foot print small and delivers up to 2000 CFM of air flow. The rotational molded housings are seamless, leak proof and virtually indestructible. These units are ideal for greenhouses, laboratory, medical or hospital applications.

Utilizes Standard ducting:

12" intake door and 12" exhaust ports allows for maximum airflow with little restriction. Hook up a **Duct-2-Go** 25' or 50' unit to exhaust filtered air or bring in fresh air from the outside.

Airganics 2000 / Filtered Air Purifier

Large Portable Containment System

Features:

- Three Stages of filtration utilizing a Carbon Fusion tray filter (optional Fil-Pure HEPA), Carbon pleated filter and a prefilter
- Large non marring wheels for ease of transport
- Dent proof and virtually indestructible
- Upright hand truck design allows for a single person transport and operation
- Compact foot print allows high air volume in a minimum space
- Two speed air volume control (1000 to 2000 CFM)
- 12" ducting intake door (optional)
- Easy filter change with open access clip door
- Hour meter (optional) to determine run time

Benefits:

- Odor Neutralization or Air Filtration anywhere. No installation required. Turn-key systems are "Plug and Play"
- Containment anywhere
- Flexibility and portability lowers operation costs
- Contain organically generated odors
- Safety contain mold spores, airborne pathogens or just nuisance dust
- Mobile design allows for immediate air filtration at any location

Utilizes:

- **Carbon Fusion** tray filter for odors or an optional **Fil-Pure** HEPA Filter (24" x 124" x 12")
- **Fil-Pure** Merv Pleated Filter (24" x 24" x 1")
- **Fil-Pure** Prefilters (24" x 24" x 1/2")

Model	Part No.	Weight	Dimensions	Air Volume	Power	Filters
Airganics 2000	AN2200	173 lbs 79 kg	37" x 26" x 31" 94cm x 66 cm x 79cm	2 Speed 1000-2000 CFM 850-3500 m ³ /hr	115 Volt 15 amp, 60HZ	Carbon Fusion Tray, Carbon Pleated, Ring Panel
Airganics 2000	AN2201	135lbs 61 kg	37" x 26" x 31" 94cm x 66 cm x 79cm	2 Speed 1000-2000 CFM 850-3500 m ³ /hr	115 Volt 15 amp, 60HZ	Fil-Pure HEPA, Carbon Pleated, Ring Panel
Airganics 2000	AN2205	173lbs 79 kg	37" x 26" x 31" 94cm x 66 cm x 79cm	2 Speed 1000-2000 CFM 850-3500 m ³ /hr	230 Volt 8 amp, 50/60HZ	Carbon Fusion Tray, Carbon Pleated, Ring Panel
Airganics 2000	AN2206	135lbs 61 kg	37" x 26" x 31" 94cm x 66 cm x 79cm	2 Speed 1000-2000 CFM 850-3500 m ³ /hr	230 Volt 8 amp, 50/60HZ	Fil-Pure HEPA, Carbon Pleated, Ring Panel
