

AMP-2

Sensor Board

The AMP-2 module connects the Aqua-x to a set of precision pH / EC & temperature probes to constantly measure the pH / EC & temperature of the water being sampled. The AMP-2 works with the TrolMaster PCT-1&2 and the PPH-1&2 probes. Once connected to the Aqua-x, the AMP-2 will display the sensor data on the Aqua-x and on the APP. The minimum and maximum "limits" can be set on the Aqua-x providing 24/7 notification of pH / EC or temperatures that are out of limits.

Specifications

AMP-2

Package Contents

Sensor Board	1pc
2.5-Meter Long Signal Cable	1pc

Working Environments

Temperature	32-122°F (0-50°C)
Humidity	≤90%

Package Dimensions

Size	6.30" / 160mm(L) x 3.39" / 86mm(W) x 3.39" / 86mm(H)
------	--
