## Lighting Control Adapter P

TrolMaster's Hydro-X system can control most of the horticultural lighting fixtures sold on the market today. Most light manufacturers provide the ability to control their lighting systems using what's known as a low-volt control. That low-volt control can take many forms and communication protocols. TrolMaster makes several types of lighting adapters (LMA units) that allow the Hydro-X to control lights using their low-volt control option.

This Lighting Control Adapter P (LMA-11) is specially designed for controlling P ballast.

## Specifications

### LMA-11

#### Input Voltage

Voltage 12V

#### Maximum Current

Current 0.2A

#### Working Environments

Temperature 32-122°F (0-50°C)

Humidity ≤90%

#### Package Dimensions

Size 6.14"/156mm(L) x  
3.27"/83mm(W) x  
1.18"/30mm(H)

#### Package Content

Lighting Control Adapter P (LMA-11) 1pc

Gross Weight 1.74oz/50g
