# SECUNORM MIZAR

NO. 125001

Original size

#### Ergonomically shaped

Right-handed? Left-handed? It doesn't make any difference with the SECUNORM MIZAR. Its ergonomically shaped double lock grip can be used ideally in any hand. Cutting is especially easy for you. Even at high cutting frequencies.

#### Plastics that pack a punch

Glass fibres, to be precise. The plastic used is of particularly high quality for this reason - and abrasion resistant. This not only strengthens the gripping area at the front but increases the total duration of use.

#### It's easier than you think

You do not require any tool to change the blade. Just two hands. And in this order: Pull back the 3 in 1 activator completely, pull out the lever, replace the blade, put back the lever and continue cutting!

#### Protection with added value

The SECUNORM MIZAR 3 in 1 activator is unique. You can not only lock and unlock your cutting tool with it. You can also introduce easy and safe blade changes.

#### 2-cutting edge blade

Before you have to change the quality blade, you can turn it over once. This doubles the usage time of the blade - and reduces your energy consumption. Because your product will cut again like new.

## Your lever for a better performance.

The comfortable SECUNORM MIZAR is your gateway into the world of our high quality double lock cutter. Instead of a pushing element it has an easy to use lever that releases the blade. You can use it in many specific ways efficiently: For all common cutting materials - thanks to the large cutting depth. And for the most different types of cutting - thanks to its perfect handling.

## PRODUCT FEATURES

### Technical features

	Automatic blade retraction		Tool-less blade change
	Abrasion resistant		Very ergonomic
	Safety lock		Extended blade length
	Cutting depth 15		Lanyard hole
	Right-and-left-hander knife		

### Main cutting materials

	Cardboard: up to 3-ply		Wrapping, stretch, and shrink foil
	Plastic strapping band		Tape

### Installed blade

### Optional blade

### Certificates and Awards

## Usage

## Safety technology

### Automatic blade retraction - a high degree of safety

The SECUNORM MIZAR is fitted with automatic blade retraction: As soon as you release the lever, the blade disappears into the handle - and it stays there too. This provides a high degree of safety from cut injuries.

YOU CAN FEEL THE QUALITY.
